FOUR EASY STEPS

Step One

Apply DUO-P Cleaning Powder.

Step Two

Spot-clean stubborn stains on furniture or carpet. (Older or more stubborn stains may require additional treatments.)

Step Three

Brush in the DUO-P Powder with the DUO Brush Machine, Daisy, or Hand Brush.

Step Four

Vacuum when dry, usually after 30 to 60 minutes.

DUO-P Powder Cleans Carpet and Upholstery – This amazing powder cleans carpet and upholstery to like-new condition and removes even the most stubborn stains! And, unlike other dry-cleaning powders, no “pre-spray” is needed.

When the powder is worked into the carpet fibers, the moistened, sponge-like granules lift soil and stains out. Within 30 to 60 minutes, the powder is dry and is removed by vacuuming, leaving the carpet or upholstery clean, dry, and ready for use. However, partially used packages of powder should be tightly resealed to maintain moisture.

Why Use Dry Cleaning? – Some wet-cleaning methods inject water and detergent into the carpet pile under pressure, and an extractor is used to collect the liquid and dissolved soil. However, many rental and do-it-yourself machines only remove 50% of the dirty water, so much of the remaining water soaks into the pad. Often, this amount of moisture will cause deterioration of the carpet backing, and a wet carpet may take 8 to 36 hours to dry, depending on humidity. Also, carpets may re-soil quickly because of residual detergent, and spots may reappear in a short period of time, as the moisture and dissolved soil “wicks up” through the carpet fibers.

DUO Brush Machine Cleans Large Carpeted Areas – SEBO’s DUO Brush Machine features two spinning brushes that open the carpet pile, enabling the DUO-P Powder to clean each fiber. Weighing only 11 pounds, it is lightweight and easy to use. And with a brush-path width of 12.5 inches, a room or entire house of carpet can be quickly cleaned.
