# 300 and 350 MECHANICAL

The MECHANICAL series are commercial-grade, upright vacuum cleaners that provide the utmost in reliability, durability, and cleaning effectiveness! There are two models, offering a choice between power head widths: the 12-inch 300 MECHANICAL and the 14-inch 350 MECHANICAL. They were designed to clean carpets and hard floors, along with superb pet hair removal.

To maximize durability, these vacuums are entirely mechanical, instead of electronic. In addition, all electrical components are in the power head, with none in the bag housing or handle, thereby minimizing electrical connectors and further improving reliability. This also means that the on/off switch is located on the power head, so the user's foot can easily activate it. Plus, the power cord is externally located, which allows instant, tool-free removal and replacement. All this, along with simple access to most machine parts, means that maintenance is quick and easy.

Three On-board Tools  
are Included with  
MECHANICAL models.

**Thirty-nine-foot Cord** – A 39-foot power cord saves time, by reducing the number of electrical outlet changes needed during use.

**Easy External Power Cord Replacement with Integrated Strain Relief** – A damaged power cord can be quickly replaced without tools or a technician, and it is protected from excessive strain during use by a unique cord-lock mechanism in the handle. This saves time and money.

THE ON/OFF SWITCH  
IS LOCATED ON  
THE POWER HEAD

**Scan the QR Code** – Watch the video on how to properly replace the power cord, and how to switch the vacuum cleaner on and off.

**Instant-use Wand and Suction Hose** – The integrated, instant-use wand and suction hose are always ready. Just pull out either tool, or both together, to clean hard-to-reach corners, edges, and crevices. The wand and hose together have an eight-foot reach. The suction hose is ideal for cleaning furniture. And an optional nine-foot extension hose is available, which creates a total hose length of 15 feet . . . perfect for cleaning stairs. Choose from a range of optional attachments that can be fitted to the wand or hose!

**Four-level, Manual Brush Height with Innovative Wand Adjustment Technique** – For optimal cleaning effectiveness, the brush height has four levels, which the user can adjust while standing upright, by using the cleaning wand's tip as a convenient aid to press the adjustment button.

**Brush Obstruction Indicator with Automatic Shut Off** – If an obstruction jams the brush roller, an indicator window notifies the user, the brush roller immediately stops spinning, and the machine shuts off. This feature prevents the belts from breaking and protects the motor and carpet from damage.

**Easy Brush-roller Strip Removal and Cleaning** – The MECHANICAL has tool-free brush-strip removal, so cleaning hair build-up or replacing it when the bristles are worn is quick and easy. This is part of its heavy-duty sealed brushing mechanism, which provides extra rugged durability, and ensures consistently effective brush agitation of the carpet pile.

**Easy Maintenance** – The clog removal door and brush-roller strip are easy to access on the power head.

**Foot Pedal Stress Release** – The quick-release foot pedal maximizes durability, by relieving excessive stress or force on the handle and bag housing when it's in the upright, locked position.

**Two Power Head Widths with One-sided Edge Cleaning** – The MECHANICAL 300 is 12 inches wide with a cleaning path of 10.5 inches. The MECHANICAL 350 is 14 inches wide with a cleaning path of 12.5 inches. Both heads have one-sided edge cleaning.

**Convenient Carrying Handle** – The vacuum is easy to carry with the convenient handle located at the top, backside of the bag housing.

**Three On-board, Full-size Tools** – The MECHANICAL comes standard with a crevice tool, dusting brush, and upholstery nozzle. Also, many optional accessories are available.

**Rotating Cord Hook** – Quickly unwind the power cord using its unique rotating hook.

**Low, 6.5-inch Profile** – Its low, flat-to-the-floor profile makes cleaning under furniture easy!

**Protective, Rubber-coated Wheels** – Its wheels protect all floor surfaces and provide smooth maneuverability.

**Huge, 1.4-gallon Filter Bag** – The large-capacity filter bag is convenient and economical because fewer bag changes are needed. And closing its hygiene cap prevents dust from escaping during bag removal and disposal.

**Durable, Heavy-duty Belts** – The reinforced, geared belts do not slip or stretch, resulting in a more efficient use of power, and they should last the life of the machine.

**Three-step Filtration** – It is equipped with a pre-motor microfilter, a three-layer AeraPure™ Bag, and an S-class or optional HEPA exhaust microfilter. This system provides long-lasting filtration with smooth airflow and excellent suction performance.

**Full Bag or Clog Indicator** – When a full bag, a clog in the airflow pathway, or an excessively dirty microfilter is detected, an indicator window located on the bag housing fills with orange color and a bypass valve opens, to prevent overheating and motor damage from a lack of adequate airflow.

Included MECHANICAL 300 and 350		Attachments		
		Crevice Nozzle #1092JE	Dusting Brush with Horsehair Bristles #1387GS	Upholstery Nozzle #1491JE
Optional Three-piece Kit	9' 2" Extension Hose* #1495AM	Parquet Brush* #1359GS	22" Extension Wand* #1084GS

# STANDARD FEATURES OF SEBO VACUUM CLEANERS

**Designed and Manufactured in Germany** – Legendary quality, reliability and performance make SEBO vacuums the first choice of cleaning professionals throughout the world.

**World's Best Pet Vacuums** – Because of superior power head and brush-roller technology, SEBO vacuums are the world's best for pet hair removal!

**Reliable, Commercial-grade Components** – All SEBO vacuums are constructed with thick, reinforced, ABS plastic, aluminum and metal parts, steel axles and bearings, and high-end, quality motors. Therefore, SEBO users own reliable, long-lasting vacuum cleaners. Competing vacuums are made with thin, flimsy, inexpensive, plastic materials, none of which are reinforced, and typically have useful lifespans of one or two years.

**Rubber Wheels and Soft Bumpers Protect Homes** – Smooth-gliding, rubber wheels protect hard floors and provide exceptional maneuverability. In addition, the bumpers that surround the power heads and the soft AIRBELT bumpers that surround SEBO's canisters protect furniture, walls, and vacuum housings from incurring scuffs and scratches during use.

**Advanced, Brush-roller Technology** – SEBO's brush rollers are uniquely designed to funnel hair and debris into the power head's airflow channel, which improves vacuum cleaning performance on all flooring surfaces.

**Save Money! SEBO Vacuums Last for Years and Extend Carpet Life!** – If properly maintained, SEBO vacuums save ordinary, residential users hundreds of dollars, by providing excellent performance for ten to fifteen years or more, and their deep-cleaning, power-brush technology extends the life of carpets. Typical vacuums perform poorly, even when new, and usually do not last beyond two years. So six or seven "disposable vacuums" must be purchased during the average life expectancy of just one SEBO machine.

**Changing Bags is Easy and Clean** – SEBO filter bags can be changed in just a few seconds, and a hygiene cap keeps dust sealed inside during removal and disposal.

**Bagged vs. Bagless . . . Bags are Better!** – Top-fill, three-layer AeraPure™ Bags are an integral part of SEBO's filtration system because they hold virtually all the dirt captured by the vacuum, which improves the effectiveness and useful life of the microfilters.

## THE ONYX COLLECTION PROMOTES SEBO'S FREE WARRANTY BONUS!

All SEBO vacuum-cleaner models offer standard warranty coverage of seven years on motors and five years on non-wear parts and labor charges. However, the purpose of the Onyx Collection is to promote SEBO's **FREE WARRANTY BONUS** that extends factory warranty coverage to a total of ten-years motor, ten-years non-wear parts, and seven-years labor!

Onyx Collection vacuum cleaners are **sold exclusively in-store** by SEBO's "Authorized Dealers," but never online. The reason for the Collection's in-store exclusivity is to ensure that buyers have on-site dealer assistance with their Bonus Registrations. Using a dealer-supplied code, buyers obtain their extended warranty coverage by completing a simple online registration, located at [www.sebo.us](http://www.sebo.us). Immediately thereafter, new 10/10/7 Warranty Certificates are sent to buyers via e-mail.

The Onyx Collection also offers **optional attachments** that can make cleaning your home easier. Choose the vacuum model that best suits your flooring needs and enjoy the comfort of knowing that it's covered by an unmatched, hassle-free warranty!

The **WARRANTY BONUS** can be applied to all SEBO vacuum cleaner models of any color, not just the Onyx Collection units (power heads sold separately are excluded).

**PLEASE NOTE:** The **FREE WARRANTY BONUS** **does NOT apply** to SEBO vacuum cleaners purchased from "Third-party Websites," such as **Amazon and Walmart.com**, because they have many **UNAUTHORIZED SELLERS** with false, hidden, or disguised identities, which means they have no access to genuine replacement parts, factory-trained technicians, and labor-cost reimbursements!
