AUTOMATIC X4 and X4 Boost

AUTOMATIC X models are the most technically advanced and uniquely easy-to-use vacuum cleaners in the world! The X4 and X4 Boost feature 12-inch power heads and truly automatic height adjustment! An electronic controller measures the resistance of the spinning brush roller against the floor surface and then signals up or down adjustments, to ensure optimal performance on both carpets and hard floors. The user is also alerted to clogs, a worn brush, or a full bag, and the vacuum automatically shuts off when brush obstructions occur to protect the motor and belts from damage. SEBO's X also has an instant-use cleaning wand and suction hose, a lifetime belt warranty, tool-free brush roller removal, a 40-foot power cord, three on-board attachments, and excellent pet hair removal.

The X4 Boost model differs from the regular AUTOMATIC X4 because it offers a choice between two modes of brush roller aggressiveness! The default setting is perfect for most flooring types, but by pressing the Boost Button located on the power head, the spinning brush roller is allowed to attain greater resistance against the floor surface before upward height adjustments are made, which causes deeper brush action on carpets and rugs. For users who like automatic height adjustment but may want more aggressive brush agitation from time to time, the X4 Boost is the solution!

Low, 5.5-inch Profile – Lower the handle flat to the floor to clean under beds or lower it to the intermediate stop position to maneuver over rugs. Depress the foot pedal again to bypass the intermediate stop position, or close this position by moving the orange, handle-position slider to the right.

Instant-use Wand and Suction Hose – The integrated, instant-use wand and suction hose are always ready. Just pull out either tool to clean hard-to-reach corners, edges, and crevices. The wand and hose together have an eight-foot reach. The suction hose is ideal for cleaning furniture. And an optional nine-foot extension hose is available, which creates a total hose length of 15 feet . . . perfect for cleaning stairs. Choose from a range of optional attachments that can be fitted to the wand or hose!

Three-step Filtration – It features an S-class pre-motor microfilter, a three-layer AeraPure™ bag, an exhaust filter, and a tightly sealed casing, which prevents dirty air from escaping through its seams.

Automatic Height Adjustment: From Hard Floors to Carpets –

The electronic controller adjusts the power head up or down to the appropriate brush height, providing optimal cleaning of both carpets and hard floors. The “sealing strip,” located behind the brush, improves hard floor performance by channeling the airflow upward and preventing debris kickback.

Brush Adjustment Indicator Lights – Two green lights, one for “up” and one for “down,” illuminate to indicate when the power head is adjusting the brush height to the proper cleaning level. Optimal cleaning effectiveness occurs when both lights are off.

Brush Obstruction Light with Automatic Shut Off – If an obstruction jams the brush roller, the red “check brush” warning light flashes quickly, the brush roller immediately stops spinning, and the vacuum shuts off. This feature prevents the belts from breaking and protects the motor and carpet from damage.

Worn Brush Light. Easy Brush Removal and Cleaning – When the brush roller’s bristles are worn to a point that brush agitation is less effective, the red “check brush” warning light remains illuminated during use. (The vacuum continues to operate; it will not automatically shut off.) When needed, installing a new brush roller or cleaning hair or other debris from a used brush is quick and easy, and no tools are required!

Stationary Use Light – When the vacuum is stationary in its upright, handle-locked position, the power head adjusts upward to the height necessary (or to its highest possible level) to disengage the spinning brush roller from the floor. However, if the brush remains in contact with carpet fibers, despite the power head’s upward adjustment, the red “check brush” warning light flashes to alert the user to avoid potential carpet marking from excessive use time in a stationary position. Usually, very high-pile carpets cause this situation, or the vacuum is tilted forward, toward the brush roller, while using the cleaning wand and/or hose. The solution is to tilt the locked, upright handle backward, such that the brush is raised above the carpet pile.

Full Bag or Clog Light with Automatic Shut Off – When a full bag, a clog in the airflow pathway, or an excessively dirty microfilter is detected, the red “bag full or clog” warning light illuminates, and the vacuum automatically shuts off after 30 seconds. This feature prevents overheating and motor damage from a lack of adequate airflow.

Combination Carrying Handle with Rotating Cord Hook – It’s easy to carry the vacuum or quickly unwind the cord, using its unique handle with integrated, rotating cord hook.

Three On-board, Full-size Tools. Large Filter Bag – The vacuum includes a crevice tool, dusting brush, upholstery nozzle, and a large 1.4-gallon filter bag. Also, many optional accessories are available.

Lifetime Belt Warranty – The AUTOMATIC X’s heavy-duty, geared belts should last the life of the machine!

Forty-foot Cord – A 40-foot power cord saves time, by reducing the number of electrical outlet changes needed during use.

One-sided Edge Cleaning – The AUTOMATIC X4 is 12 inches wide, with a cleaning path of 10.5 inches and one-sided edge cleaning.

Protective, Rubber-coated Wheels – Its wheels protect all floor surfaces and provide smooth maneuverability.

Easy Maintenance – The clog removal door, replaceable brush roller, and “sealing strip” are easy to access.

Soft-start Feature – The vacuum’s gradual power-up extends motor life.

Included AUTOMATIC X4 and X4 Boost			
Crevice Nozzle #1092GS	Dusting Brush with Horsehair Bristles #1387GS	Upholstery Nozzle #1491GS

STANDARD FEATURES OF SEBO VACUUM CLEANERS

Designed and Manufactured in Germany – Legendary quality, reliability and performance make SEBO vacuums the first choice of cleaning professionals throughout the world.

World's Best Pet Vacuums – Because of superior power head and brush-roller technology, SEBO vacuums are the world's best for pet hair removal!

Reliable, Commercial-grade Components – All SEBO vacuums are constructed with thick, reinforced, ABS plastic, aluminum and metal parts, steel axles and bearings, and high-end, quality motors. Therefore, SEBO users own reliable, long-lasting vacuum cleaners. Competing vacuums are made with thin, flimsy, inexpensive, plastic materials, none of which are reinforced, and typically have useful lifespans of one or two years.

Rubber Wheels and Soft Bumpers Protect Homes – Smooth-gliding, rubber wheels protect hard floors and provide exceptional maneuverability. In addition, the bumpers that surround the power heads and the soft AIRBELT bumpers that surround SEBO's canisters protect furniture, walls, and vacuum housings from incurring scuffs and scratches during use.

Advanced, Brush-roller Technology – SEBO's brush rollers are uniquely designed to funnel hair and debris into the power head's airflow channel, which improves vacuum cleaning performance on all flooring surfaces.

Save Money! SEBO Vacuums Last for Years and Extend Carpet Life! – If properly maintained, SEBO vacuums save ordinary, residential users hundreds of dollars, by providing excellent performance for ten to fifteen years or more, and their deep-cleaning, power-brush technology extends the life of carpets. Typical vacuums perform poorly, even when new, and usually do not last beyond two years. So six or seven "disposable vacuums" must be purchased during the average life expectancy of just one SEBO machine.

Changing Bags is Easy and Clean – SEBO filter bags can be changed in just a few seconds, and a hygiene cap keeps dust sealed inside during removal and disposal.

Bagged vs. Bagless . . . Bags are Better! – Top-fill, three-layer AeraPure™ Bags are an integral part of SEBO's filtration system because they hold virtually all the dirt captured by the vacuum, which improves the effectiveness and useful life of the microfilters.

THE ONYX COLLECTION PROMOTES SEBO'S FREE WARRANTY BONUS!

All SEBO vacuum-cleaner models offer standard warranty coverage of seven years on motors and five years on non-wear parts and labor charges. However, the purpose of the Onyx Collection is to promote SEBO's **FREE WARRANTY BONUS** that extends factory warranty coverage to a total of ten-years motor, ten-years non-wear parts, and seven-years labor!

Onyx Collection vacuum cleaners are **sold exclusively in-store** by SEBO's "Authorized Dealers," but never online. The reason for the Collection's in-store exclusivity is to ensure that buyers have on-site dealer assistance with their Bonus Registrations. Using a dealer-supplied code, buyers obtain their extended warranty coverage by completing a simple online registration, located at www.sebo.us. Immediately thereafter, new 10/10/7 Warranty Certificates are sent to buyers via e-mail.

The Onyx Collection also offers **optional attachments** that can make cleaning your home easier. Choose the vacuum model that best suits your flooring needs and enjoy the comfort of knowing that it's covered by an unmatched, hassle-free warranty!

The **WARRANTY BONUS** can be applied to all SEBO vacuum cleaner models of any color, not just the Onyx Collection units (power heads sold separately are excluded).

PLEASE NOTE: The **FREE WARRANTY BONUS** **does NOT apply** to SEBO vacuum cleaners purchased from "Third-party Websites," such as **Amazon and Walmart.com**, because they have many **UNAUTHORIZED SELLERS** with false, hidden, or disguised identities, which means they have no access to genuine replacement parts, factory-trained technicians, and labor-cost reimbursements!
