AUTOMATIC X7 Premium, X7 Premium PET, and X8

AUTOMATIC X models are the most technically advanced and uniquely easy-to-use vacuum cleaners in the world! Available in two power head widths, the 12-inch X7 and 15-inch X8 feature truly automatic height adjustment, an LED headlight, and an extra layer of micro-filtration. An electronic controller measures the resistance of the spinning brush roller against the floor surface and then signals up or down adjustments, to ensure optimal performance on both carpets and hard floors. The user is alerted to clogs, a worn brush, or a full bag, and the vacuum automatically shuts off when brush obstructions occur. The X7 and X8 also have an instant-use cleaning wand and suction hose, a lifetime belt warranty, tool-free brush roller removal, a 40-foot power cord, three on-board attachments, and excellent pet hair removal.

The three X7 Premium models also offer the user a choice between two modes of brush roller aggressiveness! The default setting is perfect for most flooring types, but by pressing the Brush-mode Button located on the power head, the spinning brush roller is allowed to attain greater resistance against the floor surface before upward height adjustments are made, which causes deeper brush action on carpets and rugs. However, the X8 does not have a Brush-mode Button. The X7 Premium PET also includes a turbo brush, a nine-foot extension hose, and a microfilter that absorbs pet odors.

Three On-board, Full-size Tools. Large Filter Bag –

The vacuum comes standard with a crevice nozzle, dusting brush, upholstery nozzle, and a large 1.4-gallon filter bag. Also, many optional accessories are available.

Three-step Filtration – It features an S-class pre-motor microfilter, a three-layer AeraPure™ bag, and an exhaust microfilter, all in a tightly sealed casing that prevents dirty air from escaping through its seams.

Low, 6-inch Profile – Its low, flat-to-the-floor profile makes cleaning under furniture easy!

Instant-use Wand and Suction Hose – The integrated, instant-use wand and suction hose are always ready. Just pull out either tool, or both together, to clean hard-to-reach corners, edges, and crevices. The wand and hose together have an eight-foot reach. The suction hose is ideal for cleaning furniture. And an optional nine-foot extension hose is available, which creates a total hose length of 15 feet . . . perfect for cleaning stairs. Choose from a range of optional attachments that can be fitted to the wand or hose!

Soft-start Feature – The vacuum's gradual power-up capability extends motor life.

Automatic Height Adjustment: From Hard Floors to Carpets –

The electronic controller adjusts the power head up or down to the appropriate brush height, providing optimal cleaning of both carpets and hard floors. The “sealing strip,” located behind the brush roller, improves hard floor cleaning performance by channeling the airflow and preventing debris kickback.

Two Modes of Automatic Brush Agitation – Only the X7 Premium model offers a choice between two modes of automatic brush agitation! The default setting is perfect for most flooring types, but more aggressive and deeper brush action can be activated by pressing the Brush-mode Button.

Brush Adjustment Indicator Lights – Two green lights, one for “up” and one for “down,” illuminate to indicate when the power head is adjusting the brush height to the proper cleaning level. Optimal cleaning effectiveness occurs when both lights are off.

Stationary Use Light – When the vacuum is stationary in its upright, handle-locked position, the power head adjusts upward to the height necessary (or to its highest possible level) to disengage the spinning brush roller from the floor. However, if the brush remains in contact with carpet fibers, despite the power head’s upward adjustment, the red “check brush” warning light flashes to alert the user to avoid excessive use time in a stationary position.

Full Bag or Clog Light with Automatic Shut Off – When a full bag, a clog in the airflow pathway, or an excessively dirty microfilter is detected, the red “bag full or clog” warning light remains illuminated, and the vacuum automatically shuts off after 30 seconds to avoid motor damage from a lack of airflow.

Brush Obstruction Light with Automatic Shut Off – If an obstruction jams the brush roller, the red “check brush” warning light flashes quickly, the brush roller immediately stops spinning, and the vacuum shuts off. This feature prevents the belts from breaking and protects the motor and carpet from damage.

Worn Brush Light. Easy Brush Roller Removal and Cleaning – When the brush roller’s bristles are worn to a point that brush agitation is less effective, the red “check brush” warning light remains illuminated during use. Installing a new brush roller or just removing accumulated hair is quick and easy, and no tools are required!

Easy Maintenance – The clog removal door is easy to access, and its brush roller and “sealing strip” are easy to replace.

Lifetime Belt Warranty – Stop changing vacuum belts! With an AUTOMATIC X, its heavy-duty, geared belts should last the life of the machine!

LED Headlight – The AUTOMATIC X7 Premium and X8 models are both equipped with a headlight to illuminate cleaning surfaces in low-light conditions.

Forty-foot Cord – Its 40-foot cord saves time, by reducing the number of electrical outlet changes needed during use.

Foot Pedal Stress Release – When it’s in the upright, handle-locked position, the pedal relieves potentially damaging force against the bag housing by unlocking the handle.

Two Power Head Widths. One or Two-sided Edge Cleaning – All AUTOMATIC X7 models are 12 inches wide with a cleaning path of 10.5 inches and one-sided edge cleaning. The AUTOMATIC X8 is 15 inches wide with a cleaning path of 14.5 inches and two-sided edge cleaning.

Protective, Rubber-coated Wheels – Its wheels protect all floor surfaces and provide smooth maneuverability.

Combination Carrying Handle with Rotating Cord Hook – It’s easy to carry the vacuum or quickly unwind its cord.

STANDARD FEATURES OF SEBO VACUUM CLEANERS

Designed and Manufactured in Germany – Legendary quality, reliability and performance make SEBO vacuums the first choice of cleaning professionals throughout the world.

World's Best Pet Vacuums – Because of superior power head and brush-roller technology, SEBO vacuums are the world's best for pet hair removal!

Reliable, Commercial-grade Components – All SEBO vacuums are constructed with thick, reinforced, ABS plastic, aluminum and metal parts, steel axles and bearings, and high-end, quality motors. Therefore, SEBO users own reliable, long-lasting vacuum cleaners. Competing vacuums are made with thin, flimsy, inexpensive, plastic materials, none of which are reinforced, and typically have useful lifespans of one or two years.

Rubber Wheels and Soft Bumpers Protect Homes –

Smooth-gliding, rubber wheels protect hard floors and provide exceptional maneuverability. In addition, the bumpers that surround the power heads and the soft AIRBELT bumpers that surround SEBO's canisters protect furniture, walls, and vacuum housings from incurring scuffs and scratches during use.

Advanced, Brush-roller Technology – SEBO's brush rollers are uniquely designed to funnel hair and debris into the power head's airflow channel, which improves vacuum cleaning performance on all flooring surfaces.

Save Money! SEBO Vacuums Last for Years and Extend Carpet Life! – If properly maintained, SEBO vacuums save ordinary, residential users hundreds of dollars, by providing excellent performance for ten to fifteen years or more, and their deep-cleaning, power-brush technology extends the life of carpets. Typical vacuums perform poorly, even when new, and usually do not last beyond two years. So six or seven "disposable vacuums" must be purchased during the average life expectancy of just one SEBO machine.

Changing Bags is Easy and Clean – SEBO filter bags can be changed in just a few seconds, and a hygiene cap keeps dust sealed inside during removal and disposal.

Bagged vs. Bagless . . . Bags are Better! – Top-fill, three-layer AeraPure™ Bags are an integral part of SEBO's filtration system because they hold virtually all the dirt captured by the vacuum, which improves the effectiveness and useful life of the microfilters.

THE ONYX COLLECTION PROMOTES SEBO'S FREE WARRANTY BONUS!

All SEBO vacuum-cleaner models offer standard warranty coverage of seven years on motors and five years on non-wear parts and labor charges. However, the purpose of the Onyx Collection is to promote SEBO's **FREE WARRANTY BONUS** that extends factory warranty coverage to a total of ten-years motor, ten-years non-wear parts, and seven-years labor!

Onyx Collection vacuum cleaners are **sold exclusively in-store** by SEBO's "Authorized Dealers," but never online. The reason for the Collection's in-store exclusivity is to ensure that buyers have on-site dealer assistance with their Bonus Registrations. Using a dealer-supplied code, buyers obtain their extended warranty coverage by completing a simple online registration, located at www.sebo.us. Immediately thereafter, new 10/10/7 Warranty Certificates are sent to buyers via e-mail.

The Onyx Collection also offers **optional attachments** that can make cleaning your home easier. Choose the vacuum model that best suits your flooring needs and enjoy the comfort of knowing that it's covered by an unmatched, hassle-free warranty!

The **WARRANTY BONUS** can be applied to **all SEBO vacuum cleaner models of any color**, not just the Onyx Collection units (power heads sold separately are excluded).

PLEASE NOTE: The **FREE WARRANTY BONUS** **does NOT apply** to SEBO vacuum cleaners purchased from "Third-party Websites," such as **Amazon and Walmart.com**, because they have many **UNAUTHORIZED SELLERS** with false, hidden, or disguised identities, which means they have no access to genuine replacement parts, factory-trained technicians, and labor-cost reimbursements!
